- ❏ Used **CSS** media queries to make a responsive layout

Professional Experience

KushCo Holdings | Software Developer   2019
- Lead front-end developer for a two-sided marketplace app that allows users to login and connect buyers with sellers
- Utilized **Semantic-UI/styled components** to execute designs provided by the UX designer through the InVision app
- Prototyped the app using **react, redux, react router** utilizing the data contract created with the back-end developers
- Set up the **CI/CD** process for front-end and deployed on **Azure**
- Collaborated with back-end developers to create data schema
- Assisted in setting up **node** server and **webpack** config
- Used OneLogin for user authentication

Moving Analytics | Freelance Assistant Front End Developer   2019
- Assist in analyzing **Angular** code base for implementing and modifying dashboard features with **CSS** and **bootstrap 4**
- Utilize **JIRA** for task management and planning for the scope of a sprint
- Handle version control through **Git**

TECHNICAL SKILLS

STRONG
- JavaScript: ES5/ES6
- React/Redux
- jQuery/AJAX
- APIs/JSON
- Axios/Fetch
- HTML5/CSS3
- OOP
- Material/Semantic UI
- Styled Components
- Bootstrap 4
- UI/UX

EXPERIENCED
- Node.js/Express
- Docker
- Webpack
- Sequelize
- PHP
- MySQL/MSSQL
- Next.js
- SQL Server
- OneLogin

TOOLS
- AWS Services
- Azure DevOps
- SSMS
- Git/GitHub
- Meister Task
- Postman
- Agile/Scrum
- NPM
- JIRA
- Figma/InVision
- DB Designer
- CI/CD

EDUCATION

California State University Fullerton- *Bachelor's of Science Kinesiology*

LearningFuze Web Development- *80 hours/week*
